The Arenal Lake we cross is the largest and the most important lake in Costa Rica; it was man made in 1974 to provide hydroelectric energy for the country. It is also a place where you can find different kinds of resident and migratory birds. Once at Río Chiquito, we disembark and take short break to stretch our legs before, continuing for around 1 1/2 hours by microbus to your chosen hotel or lodge in Monteverde.

A fascinating and beautiful half-day excursion, accompanied by expert local guides, in the surrounding Monteverde Cloud Forest Reserve. We explore the cloud forest from the forest floor and on treetop hanging walkways to obtain a birds eye view of this unique reserve. In the afternoon we visit the Butterfly Garden, a living laboratory of butterflies, snakes and frogs.
