# ECUADOR & GALAPAGOS

web Photographs and information: veloso.com/ecuador

#### ECUADOR

Ecuador is composed of four distinct regions : the Amazon basin to the east, the Andean highlands running down the centre of the country, the Pacific coastline to the west, and the archipelago of the Galapagos Islands 600 miles out into the Pacific Ocean. There are many outdoor markets, country haciendas, churches and religious ceremonies, making it a pleasure to observe the character of the people. The seldom visited coastline is home to wild beaches, while the small Inca archaeological site at Ingapirca in the south is evidence of a long history and ancient regional connections with Peru.

#### Galápagos Islands

The Galapagos is an archipelago of volcanic islands, distributed on either side of the equator in the Pacific Ocean, 600 miles from mainland Ecuador. This isolation. and the distance between the islands themselves, led to the evolution of species on separate islands, but with marked differences. Darwin's observation of this process led him to his famous scientific discoveries. The wildlife is unafraid of people, to the point that one can get remarkably close to birds and iguanas, and swim with playful sea lions.

#### Andean highlands

Colourful Indian markets in remote villages rest amongst Andean landscapes of soaring cones of snow-capped volcanoes. The towns and people retain a distinctive identity with fascinating blends of Inca and colonial influences

#### Amazon Rainforest

The legendary Amazon is home to hundreds of species of mammals, thousands of birds and insects, many endemic to Ecuador. Ancient trees, some over 400 years old, tower above, entangled with thick lianas and supporting a huge variety of bromeliads. Wildlife apart, this is also a cultural experience, where we meet local communities who share their intimate knowledge of their surroundings, the medicinal properties of plants and their unique relationship with the jungle.

## HACIENDAS & HORSERIDING

#### 3 days • 2 nights

To step into Hacienda Zuleta is to step back in time, where you can experience four centuries of Ecuadorian history steeped in Spanish and Ecuadorian tradition. Located in the mountains north of Quito, surrounded by the natural beauty of the Andes, the seventeenth century hacienda still has a working farm set in 4000 acres of grounds, complete with its own vegetable gardens, dairy farm and trout pond and riding stables with over 100 horses. Decorated with antique furniture and typical Ecuadorian weavings, every guest room has a fireplace, with cosy living and reading rooms. You can stay for 2 or more nights or visit on a full day tour from Quito.

Horseriding is a speciality at Zuleta, with lessons available for complete beginners through to advanced level. Other activities can include mountain biking, walking trails in the mountains to appreciate the beautiful scenery, hiking nearby volcanoes, visits to the ancient archaeological site of Caranqui, cooking with the Hacienda's chef, traditional Ecuadorean embriodery, and bird watching for Andean Condors.

## INDIGENOUS MARKETS & OTAVALO

Otavalo Markei

The Andean valleys to the north and south of Quito are a landscape of Snow covered mountains, lakes and terrace farmland. The colourful village markets are famous for their fine handicrafts and bustle with local people trading farm produce, cloth and household goods. The most famous of these is the **Indigenous market of Otavalo**, which dates back to pre-Inca times and is well-known for its textiles. Its narrow cobbled streets fill with Otavalo locals in their distinctive costume of blue poncho, white trousers and long, braided hair.

#### 2 days • 1 night / Friday

**Day 1** From Quito we drive along beautiful valleys past dairy farms and rose plantations to the small town of Calderón. Next we visit **Peguche** and **San Antonio de Ibarra** to see local wood carving, and continue to **Cotacachi**, a centre of leather working. Overnight at one of the haciendas near **Otavalo**. (*L*,*D*)

*Day* **2** Visit the colourful and bustling market in Otavalo. There is ample time to shop and wander around. Return to Quito in the afternoon. (*B*)

ECUADOR & GALAPAGOS

Quito is located on a plateau at the foot of Pichincha volcano. Colonial architects built the formidable churches, monasteries and mansions which caused the city to be designated a World Heritage Site by UNESCO. Visit St. Augustine Convent & the Parliament Buildings, whose stone mural depicts the history of Ecuador. The main square is flanked by the Cathedral, the Presidential Palace, Municipal Building and the Archbishop's Palace. Nearby the church of San Francisco is one of the great religious buildings of the New World, Baroque influenced by Moorish style.

#### Excursions available in Quito:

- City Tour of the colonial centre, with narrow cobbled streets, large squares, Spanish architecture and impressive Baroque churches.
- Cablecar Ride up the Pichincha Volcano, viewing Quito from above
- 'Middle of the World' Monument and Museum of Equator.
- Walking Day Trips outside the city, including: Cotopaxi National Park, Antisana Volcano Reserve, Cuicocha Crater Lake, Page 125

## **CLOUD FOREST**

Ecuador's Choco cloud forest is one of the world's biodiversity hotspots. Located two hours west of Quito by road, the forest covers a range of altitudes from 900m to 2500m above sea level, and is part of the UNESCO Biosphere of the Andean Choco. It is home to a huge range of wildlife, including a great number of birds, including hummingbirds, making it popular with bird watches. New plant and animal species are still being discovered. The reserves are a great place for a daytrip from Quito to discover natural ecosystems, or stay at one of the excellent lodges, to be able to hike in the forest, spot birds and marvel at the forest-covered mountain scenery.

## Mashpi Deluxe

Three hours by road from Quito, into the heart of the forest, Mashpi Lodge is set within its own 2500 acre private reserve. The lodge is the perfect base for discovering the Ecuadorean cloud forest, surrounded by nature. The modern design of metal and glass blends surprisingly well into the surroundings, while floor-toceiling windows allow a close view of nature from every room. Rooms and suites are comfortable with all modern conveniences, and the dining is of the highest standard. Daily excursions are led by the onsite naturalist guides, all on an  $\dot{a}$ la carte basis, so guests can choose their activities each day. Excursions range from early morning birding walks, hikes to nearby waterfalls, admiring the view from the 30m observation tower, or taking an exhilarating ride through the forest canopy on the sky bike. There is a resident biologist actively researching the forest, and they have identified several new species including the Mashpi Magnolia and the Mashpi frog. Accommodation includes all transport, meals, soft drinks and guided activites.

Bellavista Tourist

Established in the 1990s by a British owner, Bellavista Lodge sits inside its own 2000 acre private reserve. The lodge is rustic, but rooms are spacious and well decorated with local crafts. The reserve has a network of trails and daily guided hikes to explore the forest, spot birds and other wildlife, and marvel at the scenery. Guests can explore the trails independently too. There are easy trails, but some paths are steep. Accommodation includes all meals and shared transport to and from Quito.

Empress Hummingbird

Tandayapa Tourist

Tandayapa is a specialist birding lodge, with all the knowledge and expertise required to indulge your passion for bird watching. Accommodation is simple but comfortable, with 12 rooms, a spacious lounge and balcony overlooking the forest. There is a canopy deck, a forest floor feeding hide, and hummingbird feeders, where guests can watch and wait for the huge variety of bird life. Tanagers and toucans are also commonly seen. Accommodation includes all meals and shared transport to and from Quito.

Full Day Tour

Two hours northwest of Quito we reach the valley of Tandayapa and the Bellavista Lodge cloudforest eco-system. Enjoy a walk with your naturalist guide pointing out many species of plants including several with medicinal properties; and help you to spot and identify birds. You can see several species of hummingbirds, butterflies, reptiles & mammals. Later in the afternoon return to Quito. (L)

# AVENUE OF VOLCANOES

## Cotopaxi

Cotopaxi National Park is an ecological sanctuary of 36,000 hectares surrounding the highest active volcano in the world, and is a paradise for walkers who enjoy the high altitude landscape. Located only two hours from Quito, Cotopaxi is an ideal area for nature lovers who may see llamas, wild horses, deer, rabbits and frogs, as well as the various species of birdlife, including the majestic Andean condor. We can offer full day tours to Cotopaxi from Quito, as well as overnight stays at Hosteria Runtun, which also includes a visit to local markets.

## Antisana & Termas de Papallacta

Day 1 Depart eastward from Quito through the verdant valleys of Tumbaco and Puembo. At the village of Píntag, the eastern range of the Andes rises towards the majestic paramo of Antisana. This private reserve starts at cloudforest level, dominated by bamboos and bromeliads, past the amazing lava flows of Antisana Volcano. The plateau is crowned by La Mica Lake which teems with bird life: caracaras, lapwings, Andean condos and hummingbirds. Continue to the hacienda and hike with the snows of Antisana as a pristine backdrop. After lunch in the Protected Area, drive on to the exclusive Termas de Papallacta Resort and Spa. Visit the paramo and the Andean forests of Papallacta. (*L*,*D*)

**Day 2** This morning there is ample time to relax in the thermal baths. There are various pools of different temperatures in a beautiful natural surrounding. After enjoying the wonderful healing properties of the thermal waters return to Quito in the afternoon. (B)

The lake region north of Quito

The Ecuadorean Amazon is one of the most accessible places to visit the rainforest in South America with a 45 minutes flight from Quito to the city of Coca, located on the shore of the Napo river - one of the tributaries of the Amazon. Travel by canoe to one of the excellent nearby lodges, or board a comfortable river cruise to explore the rainforest in style. All lodges and cruises include daily excursions with expert naturalist guides, all transportation and meals. This part of the Amazon is known for pink river dolphins and the endangered Manatee.

## Manatee

The Manatee is a riverboat providing an ideal opportunity to visit the Amazon rainforest in comfort and at a slow pace. The Manatee has three decks with dining room, topdeck observation "alfresco" lounge area and bar and individual cabins with air- conditioned cabins, private facilities and hot water for a maximum of 30 passengers. She has expert naturalist guides for the daily excursions ashore. The Manatee navigates the Napo River, stopping en route for you to hike and take canoe trips to see the forest and local villages, accompanied by the naturalist guides to explain the ecosystems.

Anakonda is the only luxury riverboat in the Ecuadorian Amazon. Visit remote and pristine areas of rainforest and discover the region's 15 local communities, while enjoying the comforts and services of a boutique hotel on the water. Anakonda is 148 feet-long and takes a maximum 40 passengers. The 18 spacious suites have seating areas, large and comfortable beds, and wall-to-wall panoramic windows. You will enjoy fine dining and a topdeck observation deck with bar and "alfresco" lounge, which are ideal places to have a cocktail, or simply enjoy the spectacular view of the rainforest as it floats past.

## Napo Wildlife Centre

The Napo Wildlife Centre offers a selection of beautiful, comfortable thatched cabañas with private facilities, plus dining and seating areas. This lodge includes the conservation of over 53,000 acres of the most pristine Amazon Rainforest within the Yasuni National Park, the largest biosphere reserve in Ecuador. You will be met at Coca airport and taken to the bank of the river Napo for the two hour journey by motorised canoe to the Lodge. Once you arrive and settle into your room you will have a programme of daily guided excursions and walks to experience the exuberance of the Amazon rainforest.

## Napo Cultural Centre

Experience the rainforest staying with the Yasuni Kichwa community village on the south bank of the Napo River. The hotel allows you to learn about the interesting culture of a people that has always lived in the forest. Local English speaking guides take you on excursions, showing a fascinating practical knowledge of the forest. You can also interact with the people going on excursions in the jungle, rivers and stream, and experience the canopy observation tower and clay lick where macaws and parrots congreagate. The lodge is located two hours by canoe downriver from Coca airport. It is a hotel

within the community and can take a maximum of 40 guests in comfortable, spacious cabins with private facilities and balconies with a hammock, safe deposit box, hot water, ventilation, plugs to charge batteries and mosquito nets. There is a large dining room with thatched roof: the feedback is that the food is excellent.

## Sacha Lodge

Sacha Lodge is set on a private reserve of 1300 hectares close to the Napo River. Guests fly from Quito to Coca and are taken to the river port to continue downriver by motorised canoe. You then walk along a raised boardwalk through dense flooded palm forest to Pilchicocha Lake, where dugout canoes await to carry you to the Lodge. All cabins have high thatched roofs and private shaded terraces, including the restaurant and bar. Each of the 26 bungalow provides a private bathroom with flushing toilet and hot shower. All cabins are screened

Room at Napo Wildlife Centre

against insects, and have ceiling fans, but not air-conditioning. Guided excursions include walks in the rainforest, paddle dugout canoes, night walks and canoe trips. The lodge also has an observation tower and a canopy walkway, over 30m tall. Climb into and above the rainforest canopy for a magnificent view of the dense vegetation around the lodge. From the walkway it is possible to see diverse bird species and wildlife such as monkeys and sloths. There is also a butterfly house for the breeding and study of butterflies.

# GALAPAGOS EXPLORATION CRUISES

#### THE GALAPAGOS ISLANDS

Admire the tame wildlife of the Galápagos Islands where Darwin developed his theory of evolution by natural selection. The Galápagos are located in the Pacific Ocean, directly on the equator and 600 miles off the coast of Ecuador. Here you can walk alongside the abundant wildlife thriving on the nutrients brought by a warm water current from the north which collides with a cold current from the south.

#### THE WILDLIFE

Most of the species are endemic so they can be seen throughout the year. Our website has an approximate calendar of the Cycle of Nature; for example, the sea lions have their pups from August to October. It is possible to swim with the juvenile sea lions all year except October and the Albatrosses nest on Hood Island from April to November. From July to September there is more wind and the water is cooler. In September the sea is quite choppy so it is the least attractive time to visit, and it is when several boats go into dry dock for maintenance.

#### web veloso.com/galapagos

#### THE YACHTS

You stay onboard your chosen yacht as a means to travel between the islands with no packing and unpacking. The yachts cruise at night so you can have daily walks ashore in the morning and afternoon. Please take in consideration that being on a Galápagos Cruise means that you are in the Pacific feeling the movement of the sea; the boats have noise and vibration from machinery (engines, generators, desalination plants, ventilation) and space in the cabins and publics areas is restricted considerably depending on the yacht.

#### THE EXCURSIONS

For the excursions ashore, you will be accompanied by a guide following well-defined paths so that the wildlife is not disturbed and the consequences of human presence are minimised. Whichever boat you choose, the group ashore will not exceed 16 passengers per guide (this number may be lower depending on the season and the size of your yacht) and the landings are staggered so that you explore in small groups. There are few piers so you need some agility to step ashore onto rocks or beaches, in wet and dry landings off the tenders.

## ISLAND HOPPING

Island hopping allows you to choose your specific dates of travel and any duration or if you prefer to stay on land. You stay at hotels on the islands with excursions during the day, to view wildlife and locations of special interest. Three islands have hotels: Santa Cruz and San Cristobal Islands, which have an airport and Isabella which has a small airstrip.

Itineraries are flexible and can be tailored to your preference and you have a selection of excursions to choose from each day. Travel between the islands is by speedboat or flight on a small, general aviation propeller aircraft.

The flights are weather dependent, but are quicker, more comfortable, though more expensive. Speedboat transfers are bumpy, noisy and take 2-3 hours.
